Indicaciones de Apple (PDF Works with Apple HomeKit Guideline January 2021)

Works with Apple HomeKit badge

Use a Works with Apple HomeKit badge on Licensed Product packaging and marketing communications to clearly communicate that an MFi Licensed Product offers HomeKit technology.

Works with Apple HomeKit badge—color
English, preferred version

Black-and-white badge artwork

A black-and-white line art version of each badge is available for use on layouts with limited colors or on low-resolution materials where a line screen will not print legibly.

Works with Apple HomeKit badge—black and white
English, alternate version

Works with Apple HomeKit badge—color
French, preferred version

Works with Apple HomeKit badge—black and white
French, alternate version

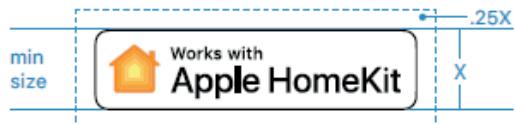

Language requirements

Comply with regional laws related to language requirements. For example, if English and French must both be represented in certain communications, it is acceptable to show both the English and French badge in layout. When showing multiple badges, ensure that badges are the same size, same color option, and placed in the same relative position on the layout.

Apple Home icon—black and white

For use only with accessory setup code. See page 11.

Print: 10 mm
Digital 30 px @1x (60 px @2x)
