Can Domenge Development

In this luxury development, the design and high quality materials are perfectly combined with the energy efficiency of the applications. The Airzone Acuazone systems are the ideal solution for hydronic applications, as they can combine zoned and individual fan coil control with radiant elements.

Location: Mallorca

Sanitas Clinics

At this chain of medical clinics, Airzone Flexa and Acuazone control systems provide the utmost HVAC comfort. The control of the units in a zoned system is performed with zone thermostats for individual rooms and intelligent switches for common areas and waiting rooms, in addition to an easy-to-access centralized control interface. Many Airzone solutions can be found in clinics in the cities of Granada, Barcelona, Madrid, Soria, Zamora, Lugo and A Coruña.
