AIRZONE VAF  
AIDOO WI-FI CONTROLLER  
AIDOO PRO CONTROLLER

# We do what we know best

ZONING AND CONTROL SOLUTIONS FOR RESIDENTIAL AND COMMERCIAL APPLICATIONS

## State-of-the-art control and integration solutions for Inverter/VRF

Airzone VAF and Aidoo Wi-Fi solve the problems of zoning, control and connectivity of the ducted and ductless indoor units in residential and commercial applications.

The most efficient HVAC control solution in the market

## A whole new level of energy efficiency and control in HVAC

### Independent temperatures

Choose the perfect temperature for each room. The best solution to the varying needs of different users.

### Comfort 24/7

Get the utmost comfort with one ducted unit and enjoy the convenience of zoning.

### Energy efficiency

Our energy-efficiency algorithms promote the rational use of energy while getting the most out of the system.

### Individual ductless unit control

Enjoy the full potential of the unit with control from anywhere, anytime.

### Economic savings

Reduce the consumption of the system by zoning: turn on only the zones you actually use.

### Latest BMS/Home Automation

Connect your Airzone system easily to the most popular BMS/Home Automation on the market.

### High quality

Recommended by the top AC manufacturers around the world. 20 years of experience at your service.

### Cloud technology

Control the temperature of your home from your smart device. Enjoy an up-to-date system 24/7 thanks to Airzone Cloud.

# Airzone VAF

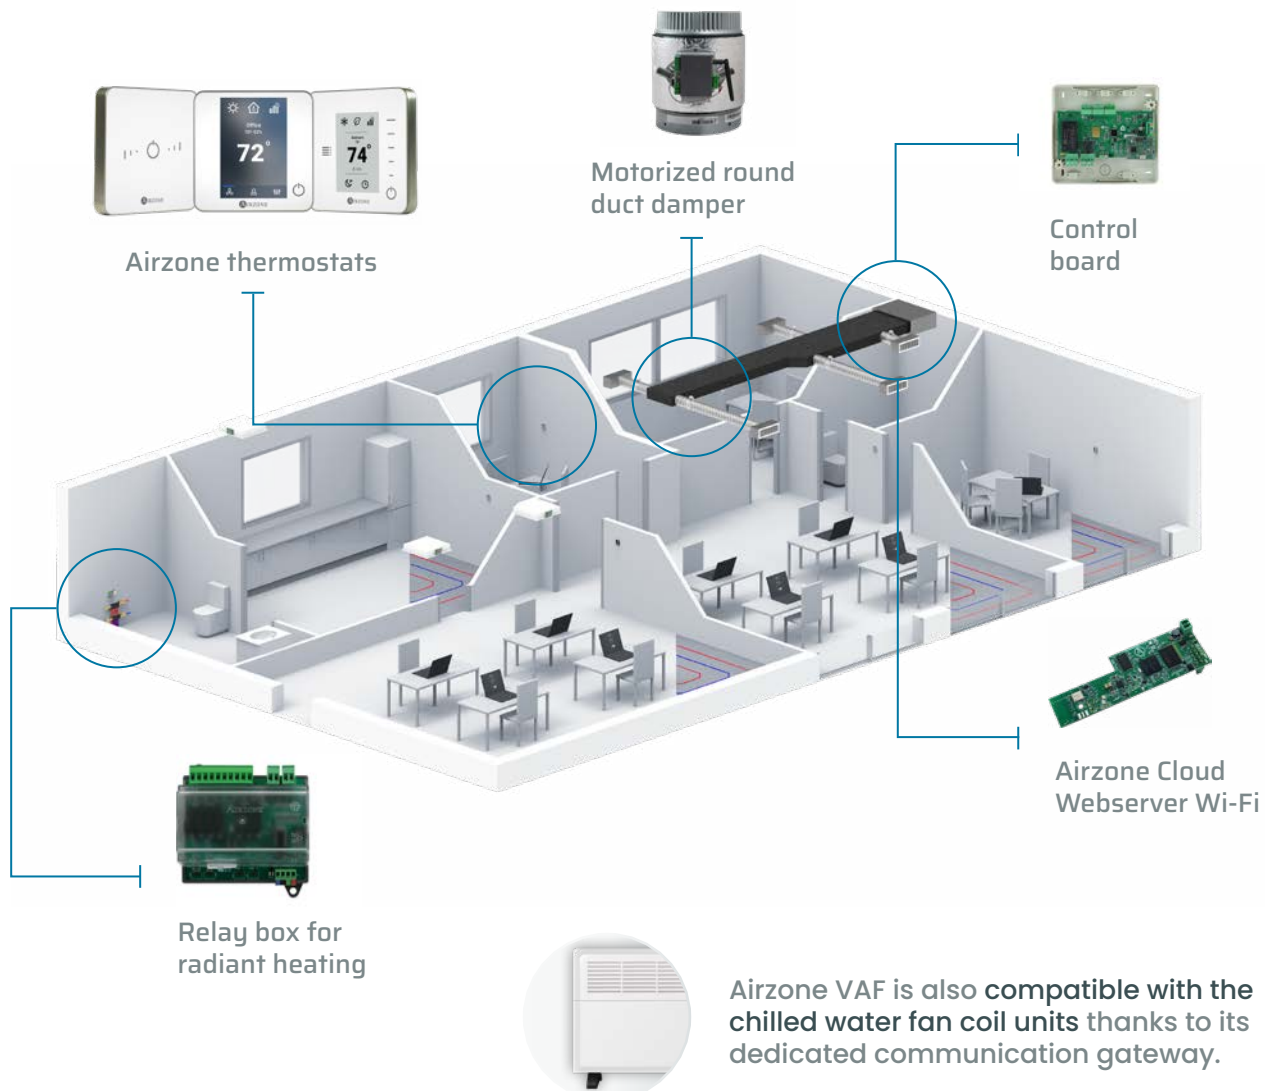

## Fundamentals

The Airzone VAF Zoning System is the perfect combination of Inverter/VRF and VAV, integrating the best of HVAC with IT.

It is a variable airflow zoning system compatible with the residential and commercial range of ducted and ductless indoor units provided.

Each solution consists of Airzone touch thermostats, 4-step modulating dampers (12V) and a VAF control PCB.

- Cost effective, superior comfort.
- Efficient and enhanced energy savings.
- Small & mid-sized commercial applications.
- Multi-split residential projects.
- Compatible with radiant heating.
- Integrable with zone-supplemental heating systems.
- Individual temperature control in each zone.

# Design and control

THE PERFECT BALANCE

## Airzone Interfaces

### Airzone Blueface

The best fit for any decor

With its color graphic touchscreen interface, Airzone Blueface is **the most complete thermostat**.

Available in:

☐ ☒ Wired

### Airzone Think

Available in:

☐ ☒ Wireless

**Low consumption**  
wireless technology.

### Airzone Lite

Available in:

☐ ☒ Wireless | Wired

**Simplest control** for  
the most common needs.

### Airzone Cloud

Full HVAC integration and  
**control wherever you go.**  
Centralized management.

# Cloud technology

THE MOST COMPLETE AND INTUITIVE INTERFACE

## Airzone Cloud

Remote control is a **fundamental feature when choosing smart control** for the home. With the Airzone Cloud app, you can manage your HVAC system remotely and program the use of the thermostat to ensure greatest efficiency.

Turning independent **zones on and off**, creating **time schedules** and conveniently **checking the weather forecast** are just some of the options offered by the application.

Thanks to the Airzone Cloud Webserver, **32 Airzone VAF systems, that make up to 320 zones, can be controlled from the same app**. This is attractive in particular for certain commercial and residential facilities such as offices, hotels, assisted livings, schools, etc.

## Discover all the possibilities of Airzone Cloud

Fast, modern, and customizable:  
The new Airzone Cloud app

- System grouping in the same building
- Renewed interface
- Different user types
- Widgets
- Fast and secure technology

**Airzone solutions are also compatible with voice assistants** of Amazon Alexa and Google which give all the user-friendly functionalities of these applications.

# Airzone bridges the gap

BETWEEN HVAC AND IOT

## Full HVAC Integration

Airzone Control Systems allow the leading **Building Management (BMS)** and Home Automation (HA) Systems to seamlessly **integrate with Inverter/VRF technologies**.

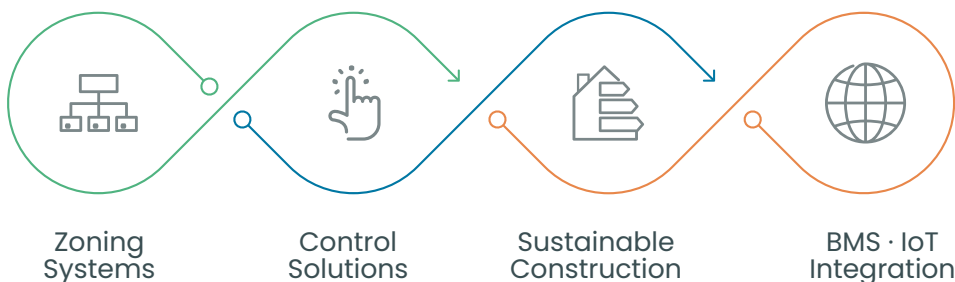

- Plug & Play solutions.
- Control, combine and coordinate floor, AC and heating with 1 solution.
- Maximum comfort for the end user.
- Enhance energy efficiency and economic savings.
- Collaboration with the major HVAC manufacturers.
- Certified protocols, two-way communications and self-guided configuration.

## AC and Radiant Heating integrated through a single interface

VRF · MULTI-SPLIT/SPLIT INVERTER AC

# BMS/HA Control

---

## Quick and easy installation

- Easily integrate any HVAC system regardless of its complexity with the leading BMS/Home Automation standards in no time.

## Simple configuration

- Just download the drivers, select the preferred parameters and you are all set.
- No more complex and time-consuming programming.

## Troubleshooting and maintenance

- You can easily diagnose the problems in other areas of the BMS system and discard those beyond your liability.

## API Cloud and API REST

- The most secure, uncomplicated and fastest 3rd party integration.

## Top Features

- Control independent zones with zoning.
- Setpoint temperature per zone.
- Temperature & Relative Humidity Sensor per zone.
- Air and radiant stage control.
- Set the Operation Mode of the entire installation.
- Integrate 3rd party thermostats.

## BMS and IoT Control Systems

## HVAC Manufacturers

# Aidoo Wi-Fi Controller

Plug & Play, one-device solution

Most secure Cloud technology

Error codes and remote diagnostics

Integration with 3rd party systems

## THE BEST ALTERNATIVE TO CONTROL INVERTER/VRF UNITS

- Multiple unit control with one app.
- Full two-way communication with the HVAC unit: On/Off, operation mode, fan speed and setpoint temperature.
- Time scheduling of user modes, temperature, and operation mode.
- Compatible with the manufacturer's thermostat.
- Maximized control, efficiency, and comfort with the simplest configuration.
- Easy to install: Aidoo comes in a user-friendly, compact package with the simplest directions to install in a matter of minutes.

3rd party smart thermostats

Heating & Cooling Cloud control

Error codes and remote diagnostics

## FULL INTEGRATION SOLUTION TO CONTROL INDIVIDUAL INVERTER/VRF UNITS REMOTELY

- Compatible with both ducted and ductless HVAC systems in residential and commercial.
- Integration with any Home Automation/BMS system via local and Cloud API.
- Communication port for BACnet/Modbus integration (BACnetMS/TP).
- 12 VdC relay output for auxiliary heat, and digital input for occupancy sensor or open window contact.
- 24/7 Smart diagnostics with reading of indoor unit warnings and errors.
- Third party smart thermostat integration (such as Nest, Honeywell and Ecobee) via Cloud – keeping Inverter/VRF features intact.
- Self-powered by external power supply provided.
- Dual Wi-Fi capable: 2.4/5G.

## Never too far from home with Aidoo

Control your HVAC settings **from anywhere in the world using the Airzone Cloud App**. Access to Aidoo remotely and set the perfect temperature back home for maximum comfort.

## With Aidoo, a few words are enough

**Connect with Amazon Alexa and Google Assistant** to voice control the AC unit.

## 24/7 Smart remote diagnostics with Airtools

Receive the most up-to-date main unit parameters and error codes real time thanks to **the Airtools function of the Airzone Cloud App**.

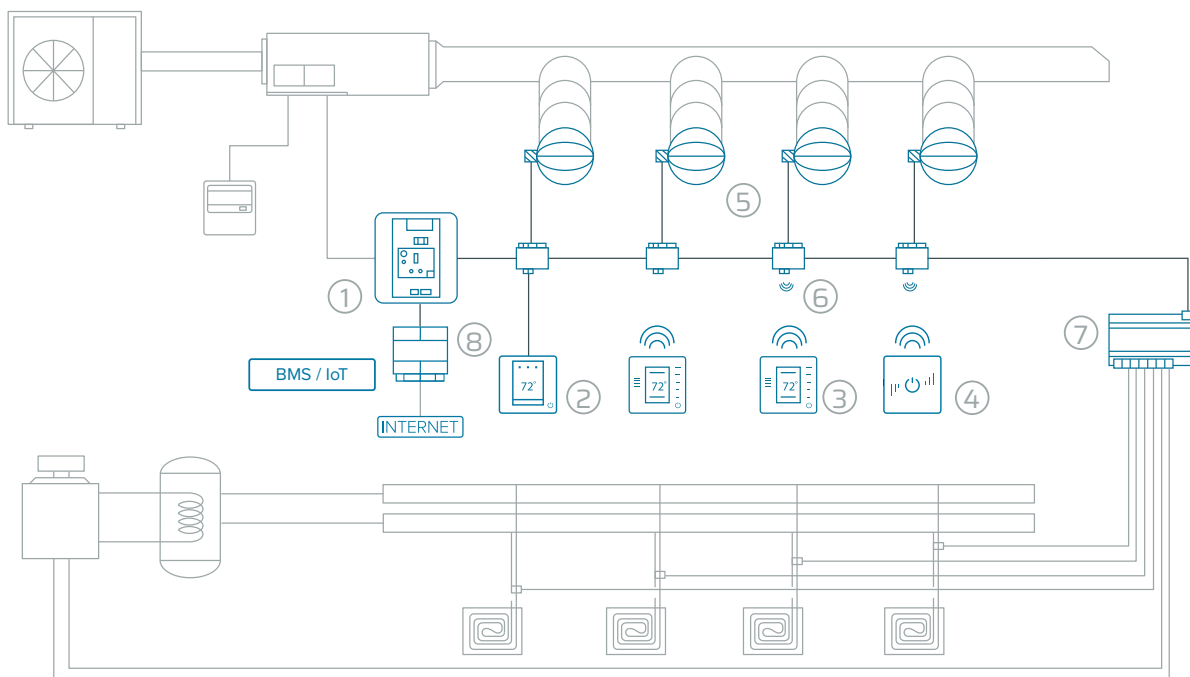

# Guidelines

## VAF ZONING SOLUTION

Airzone VAF Zoning Solution and Aidoo Controller are compatible with the ducted and ductless indoor units.

1. Always select one Airzone VAF Controller with an integrated communications gateway **AZVAFCB2XXX**.
2. Always select one Blueface Main Controller **AZVAFBLUEZEROCB**
3. Select a Zone Controller for each zone except for the main one that already has a main Blueface Controller selected. These Zone Controllers could be either wired **AZVAFLITECB** or wireless **AZVAFTHINKRB** / **AZVAFLITERB**. Note that the system can control up to 10 zones.
4. Select as many smart motorized dampers as needed. They could be wired or wireless, depending on the user's needs.

Reference	Description	Units
1 AZVAFCB2[XXX]	Airzone VAF Control board with [XXX] communication region 2	1
2 AZVAFBLUEZEROCB	Airzone Blueface Zero VAF wired controller white	1
3 AZVAFTHINKRB	Airzone VAF wireless Think controller white	1
4 AZVAFLITERB	Airzone VAF wireless Lite controller white	1
5 AZVAFDAMPER[XX]C	Airzone VAF [XX] wired intelligent round damper	2
6 AZVAFDAMPER[XX]R	Airzone VAF [XX] wireless intelligent round damper	2
7 AZVAF5OUTPUTS	Airzone VAF relay radiant heat control module	1
8 AZX6WSPHUB	Webserver HUB Airzone Cloud Ethernet - Wi-Fi	1

Replace [XXX] with the code corresponding to the brand:

DA0 = Daikin Residential  
DA1 = Daikin Sky Air/VRV  
FU2 = Fujitsu UART

GRE = Gree U-Match R410A  
GR1 = Gree U-Match R32  
HS1 = Hisense 1x1

HS2 = Hisense VRF  
LGE = LG  
MD1 = Midea V5

MEL = Mitsubishi Electric  
MHI = Mitsubishi Heavy  
PAN = Panasonic PACI

SA2 = Samsung Nasa  
TOS = Toshiba

Designed &  
Manufactured in EU
