

Bring Wi-Fi back to your MHK2

**ARE YOU MISSING WI-FI
CONNECTIVITY FOR YOUR MITSUBISHI
UNITS WITH MHK2 THERMOSTATS?**

**Aidoo is the fastest way to add Wi-Fi control
to an Inverter/VRF unit.** Use it with the
Airzone CN105 splitter for a full Wi-Fi control
of your application.

**Two-way communication with
the HVAC unit:** On/Off, operation mode,
fan speed and setpoint temperature.

User modes: Stop, Comfort, Eco,
Unoccupied, Night, Holiday.

Time scheduling of user modes,
temperature and operation mode.

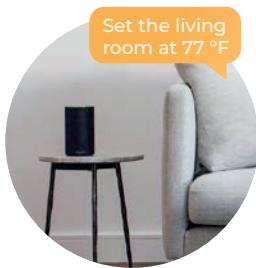

Airzone Cloud App

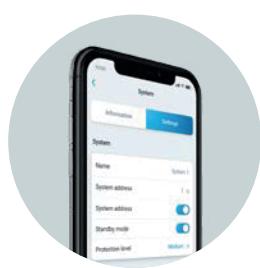

Works with Aidoo Wi-Fi

Turns a smartphone into an enhanced AC remote control.

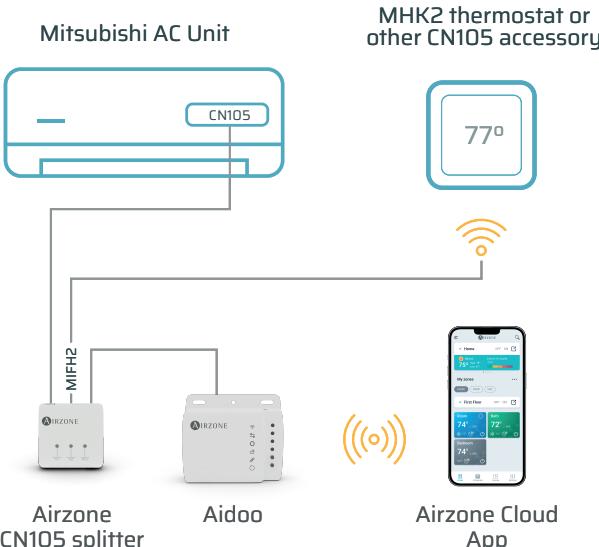

Adds voice control with Amazon Alexa, Google Assistant.

Makes maintenance easy: 24/7 remote reading of warnings and errors.
