Pro

Smart Thermostat Interface (STI)

Make Honeywell Home Smart Thermostats Compatible with High-Efficiency Inverter (Mini Split & VRF) Units

Honeywell Home

AIDOO IS
A PRODUCT
MADE BY

AIRZONE

Aidoo Pro STI is a smart interface that seamlessly connects any inverter-based HVAC unit—whether ductless or VRF—to Honeywell Home smart thermostats.

Through native communication protocols and cloud integration, Aidoo Pro STI preserves the full energy efficiency features of the inverter system, while enabling remote control, scheduling, and access to error codes.

200+ Compatible HVAC brands

Bi-Directional Communication:

The Aidoo Pro STI keeps full functionality for both the indoor unit and smart thermostat

One 24V Power Source for 2 Devices:

Aidoo Pro STI + Honeywell Home Smart Thermostat (power source field supplied)

And much more!

- **Compatible with ducted and ductless inverter units**
- **BMS integration** via BACnet MS/TP and IP, and ModBus
- **Dry contact** relay output for aux heat
- **On/off dry contact input**
- **Remote error code readings** for the indoor unit
- **Dual Wi-Fi:** 2.4/5GHz
