AirQ Sensor Wi-Fi

YOUR SMART SOLUTION FOR INDOOR AIR QUALITY CONTROL: EFFICIENT VENTILATION MANAGEMENT AND EASY INSTALLATION.

MAKE A DIFFERENCE IN YOUR INSTALLATIONS!

Clearly displays indoor air quality levels:

Good   Medium   Low

RESET
HEALTHY BUILDINGS
INTERNATIONAL STANDARD

AIRQ IS A PRODUCT MADE BY **AIRZONE**
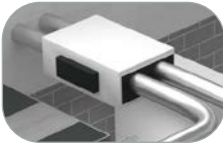

WORKS WITH WELL

01/ MONITORS INDOOR AIR QUALITY 24/7

Measures various parameters that influence indoor air quality: CO_2, relative humidity, TVOCs, $PM_{2.5}$, PM_{10} and temperature.
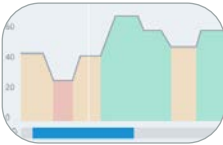

02/ IMPROVES INDOOR AIR QUALITY EFFICIENTLY

Easily configure the levels of each indoor air quality parameter according to your needs.

Automate the ventilation system to activate when high concentrations of CO_2 or volatile organic compounds (TVOCs) are detected, through:

- Automatic on/off control of the unit.
- Proportional speed control via 0–10 V signal.
- Opening or closing of ventilation dampers based on the space's requirements.

03/ OFFERS COMPLETE MONITORING

Share the air quality status, view the graphs from the Airzone Cloud app, and request periodic reports.

Integration of indoor air quality control with an energy building management system (BMS) via Modbus RTU or Cloud API.
