AIRZONE

Want your installations to truly stand out?

Make the invisible visible!

DISCOVER OUR NEW WI-FI DEVICES- **NOW WITH A FREE TRIAL!**

Take your projects to the next level with AirQ Sensor and our Wi-Fi consumption meter. Monitor what you can't see at first glance:

Indoor air quality and energy consumption.

Easy installation. No construction. No hassle.

## AirQ Sensor Wi-Fi

REF. AZAIQWSCSNS

Indoor air can be up to five times more polluted than outdoor air. **Create healthier spaces with your installations and provide efficient ventilation management.**

Visible indoor air quality indicator.
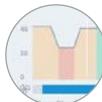

View data and graphs anytime through the Airzone Cloud app.
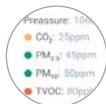

Measures CO_2, particulate matter (PM_{10} and $PM_{2.5}$), and total volatile organic compounds (TVOCs).

Monitor and manage ventilation with ease.

Wi-Fi consumption meter

REF. AZX8ACCMW1

Precisely monitor energy consumption and optimize the use of the AC units you install.

141,28 kWh
Daily consumption

Measures total energy consumption.

Access data and graphs anytime through the Airzone Cloud app.

71,99 kWh

Displays real-time power usage.

Airzone Cloud

Deliver more value, transparency, and trust to your customers.
