

# Bring Control back to your Daikin units S21

**ARE YOU MISSING CONTROL &  
CONNECTIVITY FOR YOUR  
DAIKIN UNITS S21?**

**Aidoo is the fastest way to add Wi-Fi control  
to an Inverter/VRF unit.** Use it with the  
Airzone S21 splitter for full Wi-Fi control  
of your application.

1

**Two-way communication with  
the HVAC indoor unit:**  
On/Off, operation mode,  
fan speed and setpoint temperature.

**User modes:** Stop, Comfort, Eco,  
Unoccupied, Night, Holiday.

2

3

**Time scheduling** of user modes,  
temperature and operation mode.

## Airzone Cloud App

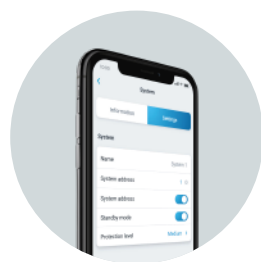

Works with Aidoo product line

Turns a smartphone into **an enhanced AC remote control**.

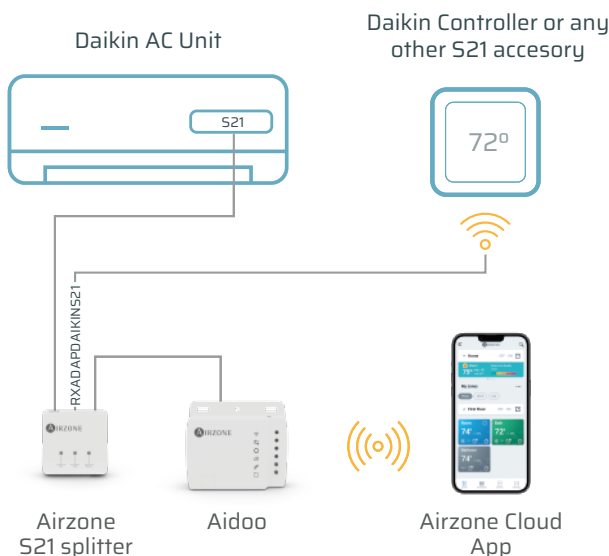

**Adds voice control** with Amazon Alexa, Google Assistant.

**Makes maintenance easy:** 24/7 remote error code readings
