

Professional PriceList 2025

Discover new features from Airzone

.1

Control systems

Our zone systems continue to evolve: now, in addition to temperature management and energy optimization, they offer air quality monitoring, ventilation control, and ionization-based air purification.

- **Flexa 25:** includes as basic components an AirQ Sensor, an AirQ Box, and coming soon an Airzone Cloud Wi-Fi Webserver or Webserver HUB.
- **Easyzone 25:** includes as basic components an AirQ Sensor and an Airzone Cloud Wi-Fi Webserver or Webserver HUB.

.2

Integration

The Aidoo lineup expands with new communication protocols, specialized versions for specific applications, and an enhanced design:

- **Aidoo Wi-Fi 2.0:** reduced size, Modbus port removed.
- **Aidoo Pro HUB:**
 - » Available in inverter/VRF, air to water, and ventilation versions.
 - » Dual-band Wi-Fi and Ethernet connectivity.
 - » Port for Airzone thermostat.
 - » Integration port compatible with Modbus, BACnet, AirQ, and third-party thermostats.

.3

Air quality

Our air quality solutions now include **wireless options, ensuring easy integration without structural modifications:**

- **AirQ Sensor Wi-Fi:** enhanced AirQ Sensor functionalities with built-in Wi-Fi connectivity.

.4

Consumption management

Our consumption meter now features **wireless communication, making it even easier to use:**

- **Wi-Fi consumption meter:** tracks hourly accumulated consumption and real-time power usage, available in both single-phase and three-phase versions.

.5

Airzone Cloud

Our HVAC management app **will include displays and features for air quality and consumption measurement**, as well as new contact options for Airzone Support Services.

.6

Airzone Pro App

We are expanding our professional services with an app specifically designed for installers. Through this platform, you can:

- **Access product details** by easily scanning its barcode (EAN) or entering its serial number.
- **Consult technical documentation**, installation manuals, video tutorials, marketing materials, and more.
- **Contact our Technical Support team directly via WhatsApp.**

Plenum Packs

Easily control room-by-room temperature with ducted Inverter/VRF DX and Fan Coil units, thanks to our Plug & Play motorized plenums.

STANDARD PLENUM PACK + MCV

- An Easyzone Standard Plenum with ionizers + MCV
- A return plenum.
- AirQ Sensor.
- Webserver Wi-Fi/HUB. **+ NEW!**

- » **Options from 2 to 8 outlets:** Ø200 mm.
- » **MCV Inlet:** Ø150 mm.
- » **Height for 2 to 6 outlets:** 300 mm.
- » **Height for 7 to 8 outlets:** 515 mm.

PACK PLÉNUM MEDIUM

- An Easyzone Medium Plenum with an ioniser included on each register.
- A return plenum.
- AirQ Sensor.
- Webserver Wi-Fi/HUB. **+ NEW!**

- » **Options from 2 to 6 outlets:** Ø200 mm.
- » **Height:** 250 mm.

Beginning of the reference	Contenu	Brand	Type of plenum			
PPC25	Easyzone plenum	[XXX]	[ST]	[01...99]	[XS/S/M/L/XL]	[2-8]
	Gateway-controller Airzone-[brand]					
	Airzone cloud Wi-Fi 2.4-5G basic webserver		[BS]			[2-6]
	AirQ Sensor Airzone + CMV					
	Return plenum					

Thermostat Packs

Choose the thermostat combination that best suits your project based on the number of rooms to control¹.

- **Choose the color** of your pack (Black | White).
- 1 main thermostat: **Blueface (B)** or **Think. (T)**
- An additional thermostat model (same type) for the rest of the zones to control: **Blueface wired (BF)**, **Think radio (TR)**, **Lite wired (LF)** or **Lite radio (LR)**.
- **1 roll of shielded Airzone bus cable** per wired thermostat.

REFERENCE START	MAIN THERMOSTAT	ZONE THERMOSTATS	NO. OF ROOMS TO CONTROL	COLOR
PT	B	BF	2 - 8	N/B
		TR		
		LF		
		LR		
	T	TR		

¹Choose from 2 to 8 thermostats per pack.

Motorised Air Diffusion

Motorised dampers

MOTORISED CIRCULAR DUCT DAMPER

Motorised circular CPCC duct damper which, attached to a circular duct, controls the passage of air in the zone served. The circular duct damper includes a flow control system that allows manual configuration of the maximum and minimum opening values of each damper, according to the needs of each application.

CPCC [LENGTH] [HEIGHT] MTE

MOTORISED RECTANGULAR DUCT DAMPER

CPRC motorised rectangular duct damper to control the air inlet of the zone when attached to an air distribution rectangular duct.

CPRC [DIAMETER] MTE

Air diffusion

Grilles

HORIZONTAL-VERTICAL DOUBLE DEFLECTION FAN GRILLE

RDHV diffusion grille in extruded aluminium with standard 26 mm frame and horizontal and vertical movable blades, individually adjustable, which allows the range and airflow to be adapted to specific needs. The following options are available:

- All/Nothing: the damper occupies 100% of the grille.
- Minimum air: the damper occupies 80% of the grille.
- 2 in 1: the damper occupies 50% of the grille.

RDHV

RETURN GRILLE WITH FILTER HOLDER

RRFR diffusion grille in extruded aluminium with standard 26 mm frame and horizontal movable blades, individually adjustable, which allows the range and airflow to be adapted to specific needs.

Fitted with a filter to protect and prevent air intake with a high concentration of suspended particles and other foreign bodies.

RRFR

15° FIXED LINEAR BLADE GRILLE

Diffusion grille in extruded aluminium with standard 26 mm frame and blades that promote airflow. The following options are available:

- All/Nothing: the damper occupies 100% of the grille.
- Minimum air: the damper occupies 80% of the grille.
- 2 in 1: the damper occupies 50% of the grille.

RLQ1/RLQ2/RLQV

Linear diffusers

AIRZONE LINEAR DIFFUSER

Long-range DFLI linear diffuser with 1 to 4 outlet slots, which promotes air blowing in two directions with the help of movable blades. Designed to be installed on a ceiling. Installation using a mounting bridge or a plenum. It is necessary to have the PLEN linear diffuser plenum.

DFLI

Diffuser plenums

GRILLES PLENUM WITH CIRCULAR DUCT CONNECTION

Plenum for PREJ diffusion grilles made of galvanised steel, with mechanical flow control. Circular/elliptical connection for circular duct adaptable to front or top opening. PREJ-Ts have type 25 Bsl d0 + 5 mm thick PS Alu insulation. Compatible with the family of diffusion grilles without motorisation and without adjustment elements.

PREJ-T

INSULATED MIXING BOX

Designed to collect return air and/or air from the by-pass and reintroduce it into the intake of the indoor unit. The device is supplied with pre-cut outlets (5 elliptical and 2 circular) and 3 elliptical openings, to be mounted on the front or on the sides. The filter holder return grille (RRFR) can only be mounted on BR 400 or 500 plenums.

BR

LINEAR DIFFUSER PLENUM

Linear diffuser plenum is made of galvanised steel and features mechanical flow control. It has a circular spigot for easy installation on flexible pipe installations and is compatible with the DFL family of linear diffusers.

PLEN

General Terms and Conditions of Sale

These General Terms and Conditions of Sale (hereinafter the "GTC") apply to any contract of sale and/or provision of services between CORPORACION EMPRESARIAL ALTRA, S.L., a Spanish Company, with Tax ID B92611102 and VAT EU number ESB92611102, (hereinafter Altra Corporation or the "Seller") and professional customers (hereinafter individually the "Customer(s)" or the "Buyer(s)").

The Customer declares to be a professional acting in the context of their activity and not an end user.

Unless otherwise agreed in writing, when an order is sent by the customer, this implies their adherence to these GTC and this, notwithstanding any contrary condition set by the Customer which will be, in the absence of express acceptance, unenforceable against Altra Corporation regardless of when it may have been brought to their attention. It is only after written acceptance of the order by Altra Corporation accompanied by these GTC that both parties are bound by the sales contract.

Any order placed by the Customer in accordance with the conditions provided for in the article "Orders" below, implies its unreserved acceptance of these GTC.

The information on catalogues and commercial proposals is given for information purposes only, Altra Corporation reserves the right to modify them at any time and without notice.

Any modification of the GTC must be the subject of an express written agreement of Altra Corporation. The Customer will thus not be able to rely on an alleged tacit agreement resulting from the silence of Altra Corporation.

Orders

All orders must reach us at the address orders@airzonecontrol.com or via the www.airzonecontrol.com platform. During each order, the Seller sends by e-mail and as soon as possible, an order acknowledgment indicating: the summary of the order, the prices and the expected date of exit from our factory stock. To place the order, the Buyer must create a customer account by following the instructions on the

Altra Corporation website www.airzonecontrol.com. The Buyer is obliged to report any errors or omissions in the order acknowledgement within 24 hours of the reception of the order confirmation. After this period, no dispute can be accepted, and the order will be considered accepted by the Seller and the Buyer and therefore final. The Buyer has the right to cancel his order within a maximum of 24 hours after receipt of the order acknowledgment by an email request to the address: orders@airzonecontrol.com. Orders are likely to be delivered in split shipments, depending on the characteristics of the order or at the request of the Customer, for a transport surcharge for any request for early delivery. When the selection of the proposed material is made by Altra Corporation based on the information provided by the Buyer, Altra Corporation assumes no responsibility that may result from inaccurate or incomplete data. It is always the Buyer's responsibility to ensure that the characteristics of the proposed equipment correspond to its needs, both in terms of performance and of implementation possibilities. The sale will be made at Buyer's own risk. The photos presented in our catalogues are not contractual.

Price

The prices invoiced to the Customer are prices excluding taxes, denominated in Euros, packaging included, transport costs being invoiced in addition and are established based on the rate in force on the date of the order.

The rates in force are those appearing on the quote of Altra Corporation or any other medium used by Altra Corporation, provided that appears on the said medium a date of validity of the prices. In principle any quote is valid for a maximum period of 30 days. However, Altra Corporation reserves the right to modify its prices at any time.

In the event of a change in prices after the quote, and more generally if the prices appearing on the quote do not comply with the prices in force, Altra Corporation will inform the Customer, being reminded that the contract cannot be formed and bind Altra Corporation as long as it has not accepted the order by means of the acknowledgment of the order. The Customer must then send a new corrected order. However, Altra Corporation undertakes to invoice the equipment ordered at the prices indicated at the time of the Customer's order acknowledgement.

Receipt of goods

The equipment is sent at the Customer's own risk. Any claim in connection with the loss or imperfections related to the packaging of the products must be made to the transport agency upon receipt of the goods and must be annotated on the carrier's receipt. In this case, the Customer has twenty-four (24) hours to obtain a claim number from the transport agency. The returned material may be accepted subject to verification of the condition of the material and its packaging, as well as its operation. In case of damage to the delivered goods and in order to provide sufficient evidence, the Buyer is obliged to photograph the packages and send the photos to sales@airzonecontrol.com in order to notify of the problem. Upon receipt of the material, the Customer has fifteen (15) natural days to inspect the contents and report possible packaging errors or defects in the items. After this period, no such claim will be accepted.

Return

Subject to the approval of Altra Corporation's technical support service, the customer has fifteen (15) calendar days from the date of delivery to return the equipment and obtain a refund with a 20% reduction of the price, provided it is returned in its original packaging and unused.

To do this, the request must be made in advance via airzonecontrol.com or by email to the After-Sales Department admin at aftersales@airzonecontrol.com.

The Customer assumes the cost of transport and guarantees the proper packaging of the material, ensuring its correct condition at the time of receipt.

Approval of the commercial service does not automatically imply the issue of a credit voucher.

Any return without prior authorisation will be systematically refused on receipt and will be returned to the sender at his expense.

Returned material will only be reimbursed if the conditions indicated in the return material request are met. The transport costs caused by the return of after-sales equipment in non-EU countries will be borne by the buyer.

Payment method

No discount is granted in case of early settlement. Payment will be made by bank transfer. In the event of late payment, the applicable penalties shall be equal to 8% of the total invoice with a minimum of 40 € (or its equivalent in the official exchange rate of the currency used in the relevant market). In case of non-payment, Altra Corporation reserves the right to block the account as well as shipments in progress, whether or not they are under warranty.

The goods remain the property of the Seller until full payment.

Likewise, in the event of delay in payment in accordance with the initially agreed deadline, Altra Corporation reserves the right to initiate the necessary legal procedures to obtain collection of the total invoice plus the corresponding penalties for the delay.

Altra Corporation sends invoices by e-mail. Nevertheless, and always at customer's request previously, Altra Corporation could send invoices in paper version.

Hardware under warranty

All products are covered by a thirty-month warranty from shipment or twenty-four months from installation, whichever comes first.

The warranty does not cover damage caused by misuse or normal wear and tear, or defects caused by negligence, knocks, improper use or handling, storage in inadequate conditions that may damage the product, such as extreme temperatures or humidity, unsuitable voltage, electrical incidents, improper installation and/or use that was not carried out by the authorized Technical Service when appropriate, nor materials subject to wear and tear through normal use. The warranty will be void for any products modified or repaired by the Client or any other person not authorized by Altra Corporation.

Repair or replacement of defective products will be free of charge, including the costs incurred to remedy the goods' lack of conformity with the contract, especially the shipping costs, as well as costs related to manual labor and materials. Any finding of malfunction of the Altra Corporation system must be diagnosed by Altra Corporation technical assistance. For further information regarding the warranty procedure, please contact: techsupport@airzonecontrol.com

Commissioning

Altra Corporation does not carry out the installation of its products. However, as indicated in our catalog (see "Commissioning service" in the "Product references" section), the Buyer may call on Altra Corporation for the commissioning of its systems. Altra Corporation will invoice this service carried out by its technical assistance or by one of its technical stations according to the prices in the quotation provided to the Buyer and according to the conditions that can be requested at the email address: airzonecontrol.com and techsupport@airzonecontrol.com.

Guarantee

Any failure or malfunction of the Altra Corporation system must be diagnosed by Altra Corporation's technical support service by contacting +44 330 822 0991.

All requests for warranty parts must be made in accordance with Altra Corporation's established procedure and must be processed through airzonecontrol.com, My Area, under 'Warranty'.

Altra Corporation will invoice all material sent as replacement under warranty.

The Customer must return the material considered defective within a maximum period of fifteen (15) calendar days from receipt of the product. After this period, no credit will be accepted on the initial after-sales service invoice.

The warranty claim shall expire after forty (40) calendar days from receipt of the product.

If a part is found to be defective and replaced under warranty, the replacement part will be covered for the remainder of the original warranty period. Please note that the warranty period does not reset or extend due to the replacement.

Force majeure

Neither party shall be liable to the other in the event of delay or non-performance of its contractual obligations in the event of force majeure in the following cases: natural disasters, fires, explosions, or accidents for which it is not responsible, strike movements, epidemics or pandemics recognized by the World Health Organization, or for other reasons beyond its control.

In the event of a case of force majeure, Altra Corporation may temporarily suspend the delivery of the products and/or the performance of the service, without this suspension being considered as a non-performance of the obligations incumbent on it under these GTC. Altra Corporation must then inform the Customer in writing of the suspension of the contract, and if it lasts more than three (3) months, the suspended sales or service contract(s) will be terminated automatically.

Data protection and intellectual property

The Client is invited to consult the website of Altra Corporation: www.airzonecontrol.com and in the footer the client can access the sections of legal notice, privacy policy and cookies policy.

It is strictly forbidden to use and exploit the rights of reproduction, distribution, public communication, and transformation according to Spanish Regulation in force at the time, as well as to use the Altra Corporation logo or any photographs and information of the products of the said entity, without its prior authorisation.

Dispute Resolution

These GTC and any contract concluded pursuant to these GTC are subject to Spanish law.

The parties are subject to Málaga Spanish law for the resolution of any conflict that may arise, and expressly waiving any other jurisdiction, the parties are subject to the courts and tribunals of Madrid (Spain).
